Nokia an inspiring history

1865

150 years ago in Finland a group of businessmen joined together on the banks of the Nokianvirta River, to explore the possibilities of the new industrial age.

They called this new enterprise, Nokia.

1868 The second wood pulp mill opened

1880 from wood pulp to paper

1898 Rubber process started

1912 Finnish cable works

1930s Into telephony

1960s

So, where to next?

New times meant new challenges, people's lives were changing fast.

1963 All the winning cars of the Monte Carlo Rally were equipped with Nokia's Hakkapeliitta winter tires

By the late 60s Nokia was exploring the world of electronics.

1971 Early networks

1972 Consumer electronics

1980s-90s

During the 80s and 90s Nokia was asking the questions and finding the answers that would make the dream of the mobile phone a reality.

Creating devices and products that were well designed, easy to use, phones that people loved.

1981 The world's first GSM call on a Nokia network

1998 "Nokia: better known than Finland!"

2000

By 2005 Nokia had sold its billionth phone.

We've never stood still.

2000 The first truly wireless olympics

2004 The first map on a mobile phone

2007 Joint venture between Nokia and Siemens

2014 Three businesses, one Nokia

Today

2015 Onwards...
The future

We are the future of Nokia

Expanding the human possibilities of technology
